Saint Francis Wolf Sanctuary

## What Are Wolves?

- Wolves are an endangered species! If we don't save them, one day they might become extinct and disappear forever.
- Wolves are carnivores, animals that only eat meat. Their favorites are elk and moose.
- Wolves look like dogs and are in the same family, but do NOT make good pets.
- Wolves live in packs, or families, and the leader is called the alpha.
- Wolves come in many different colors and types, called species, such as the gray wolf.

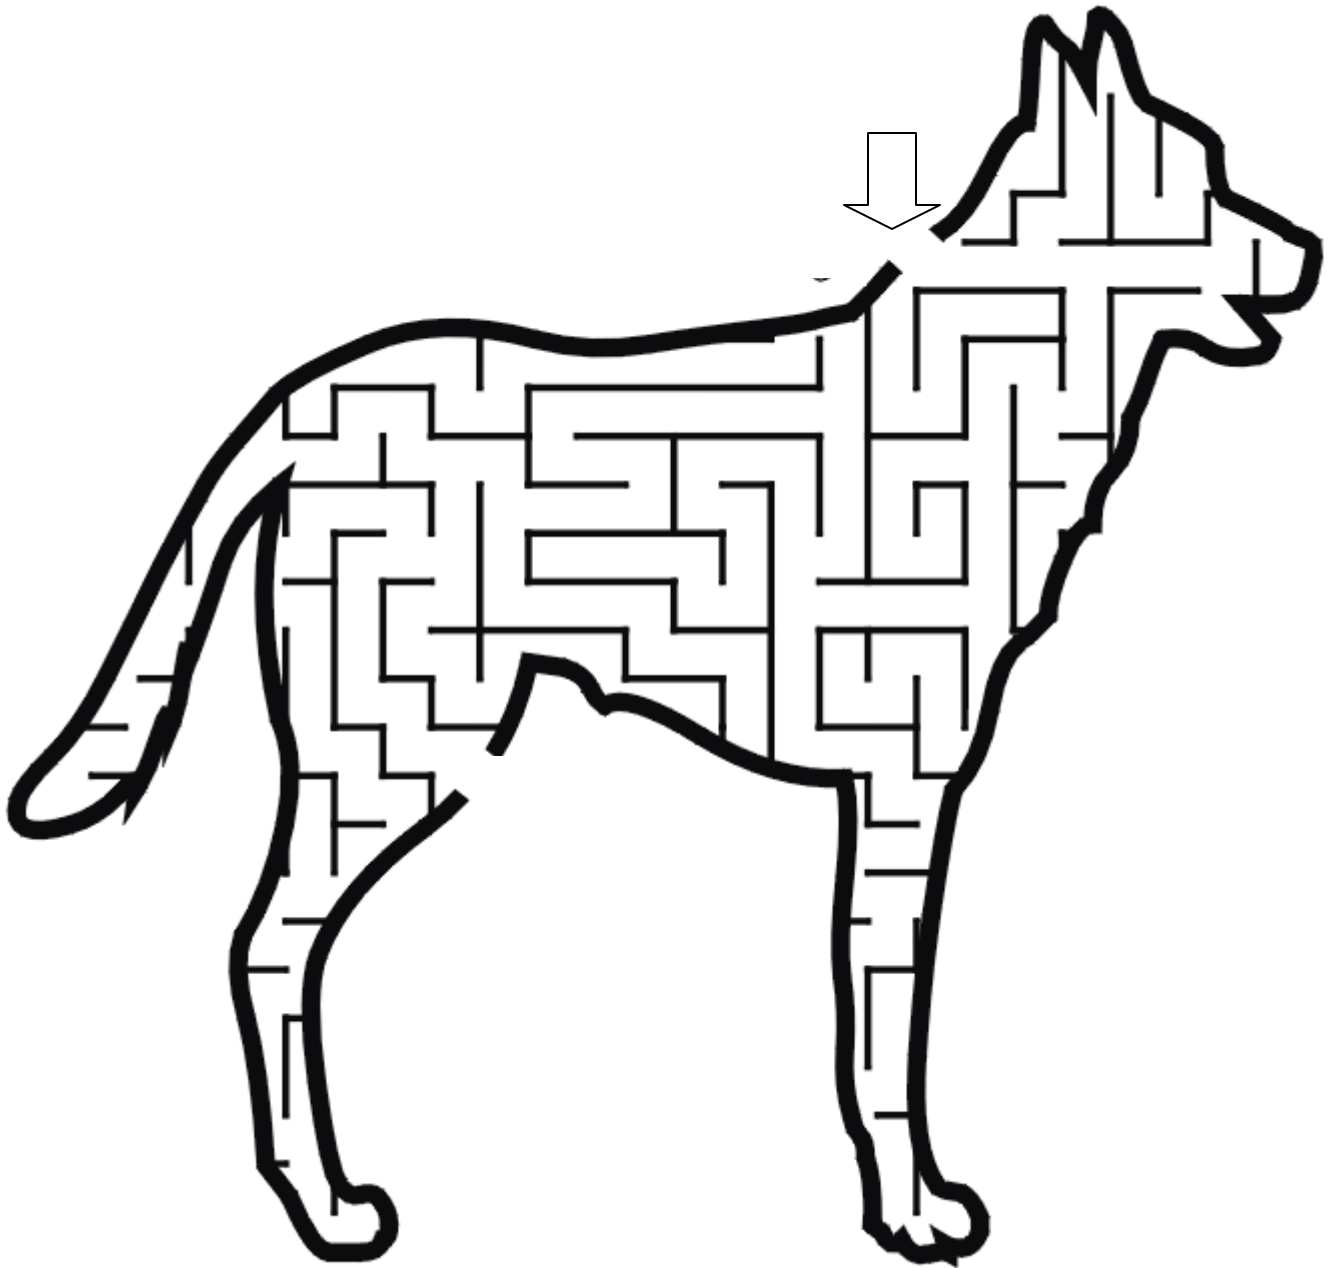

Color the wolf!

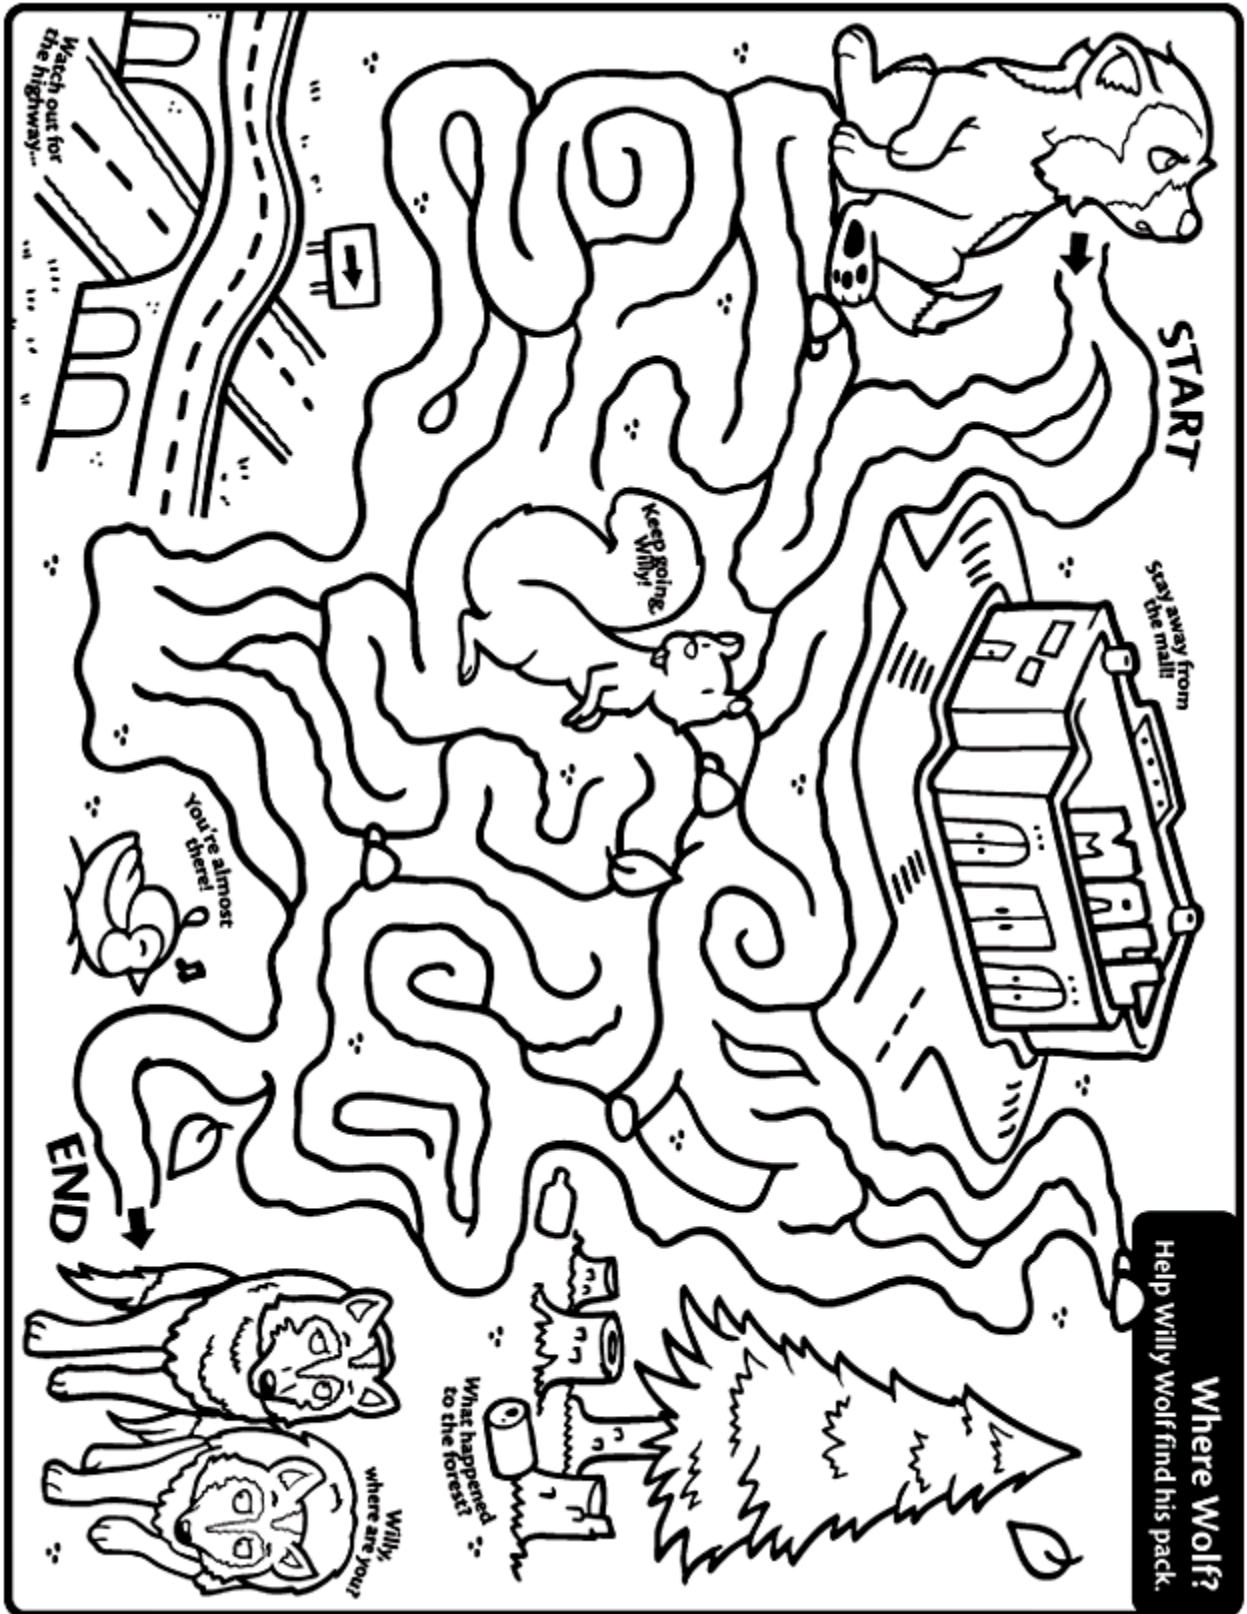

I've got four paws, I love elk, and I howl to talk to my family.

Who Am I? \_\_\_\_\_ Connect the dots to find out!

Find all of the wolf words! They can go forward or backwards and up or down.

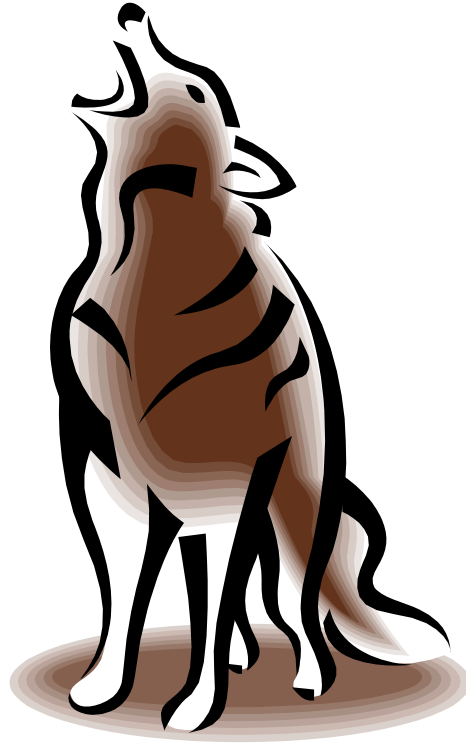

**COLOR AND THEN CUT OUT THE WOLF.  
THEN FOLD ON THE LINE. THE WOLF  
WILL THEN STAND UP ON ITS OWN.**

**ARTISTSHelpingCHILDREN.ORG**

❖ Wolves have a wide range of fur colors, from white and cream to gray, brown, and black!

**See you later!**

**Thank you for hanging out with  
the wolves at Saint Francis Wolf  
Sanctuary!**
